RULES AND REGULATIONS

FOR

QUALIFIED BREEDING STOCK (TQB)

TRIBUNALS

2019 RULES AND REGULATIONS FOR QUALIFIED BREEDING STOCK TRIBUNALS

I. INTRODUCTION

These Rules and Regulations govern the procedure by which all horses listed in the Permanent PRE Stud Book Register are eligible to participate in officially established performance tests within the PRE Breeding Program, for genetic assessment for conformation and riding and, where relevant, be listed in the PRE Stud Book register as "Qualified Breeding Stock."

II. ENTRY:

1. Stallions wishing to participate in a TQB (Tribunal for Qualified Breeding Stock) shall be or have reached the age of four (4) during the year they are presented.
2. Mares shall be at least three (3) years of age in the year they are presented, if they are not planning to take part in the ridden test.

When a mare seeks to voluntarily participate in the ridden test, this shall be indicated on the application form; in which case, said mare must be the same age as the stallions—in other words, at least four (4) years old.

All horses participating in a TQB must be considered approved as breeding stock; in other words, said horse must already be considered Basic Breeding Stock.

3. To hold a Tribunal for Qualified Breeding Stock (TQB), a minimum number of horses must be registered to enter the

event. The horses entered by a single breeder may not exceed 60% of the total. This rule may only be overlooked in the case of government owned horses.

4. No TQB may take place at the same time as or at the same facilities as a conformation competition. In the case of TQBs held abroad (outside of Spain), this ruling may be reviewed by the Breeding Program Commission, which will issue the corresponding report regarding the appropriateness of holding said event.
5. The closing date to present entries for a TQBs is ten (10) days prior to the actual event, except those events held outside of Spain, which shall be established on a case-by-case bases.
6. Included herein is the entry form. The breeder must send ANCCE a copy of the certificate stating that their horse is free of any excluding OCD, issued by the X-ray Department at the University of Cordoba Clinical Veterinarian Hospital (UCCVH)..

For TQBs held outside of Spain, the X-ray study shall be carried out at a later date, with these X-rays being sent to the University of Cordoba Clinical Veterinarian Hospital (UCCVH) for interpretation. The final result of the TQB is obtained once the x-ray report by the UCCVH has been received.

OCD studies may be carried out on horses attending TQBs held outside of Spain when the ANCCE Representative is present and digital X-rays are used. The ANCCE Representative shall keep the studies carried out for their subsequent reading by the University of Cordoba Clinical Veterinarian Hospital (UCCVH), issuing, as would be the case, the corresponding report for future presentation at the TQB.

7. To enter a horse at a TQB, a correctly completed Application form must be sent to the ANCCE Competition Department, together with the payment receipt, before the deadline established for entries. In the case of TQBs held outside of Spain, the entry may be coordinated with the Association

that is a member of ANCCE, in the country where the venue is located.

8. All horses deemed APPROVED must pass a subsequent examination upon reaching a specific age. The category as QUALIFIED shall be confirmed after having proven that said horse has not developed disqualifying defects. The age ranges for these revisions shall be established by the PRE Breeding Program Management Committee.

III. DOCUMENTATION TO BE PRESENTED

1. All horses wishing to participate in a TQB must present the following Original Documentation as soon as they are called by the veterinarian to be measured:
2. Horse's original passport
3. Certificate from the University of Cordoba Clinical Veterinarian Hospital (UCCVH) declaring the horse free of all OCD, which excludes a horse from participating in a TQB (except in the case of TQBs held outside of Spain).
4. Comply with the established Veterinarian Protocol according to the Appendix.
 - a. STALLIONS:
 - Minimum height at the withers: 1.55 m
 - Semen analysis
 - Clinical examination of reproductive organs
 - Absence of defects that negatively impact reproduction or are genetically hereditary. In addition to monorchidism, cryptorchidism and inguinal or scrotal hernias.
 - b. MARES
 - Minimum height at the withers: 1.53 m
 - Clinical examination of the reproductive organs.

- Absence of defects that negatively impact reproduction or are genetically hereditary.

5. The result of each test, as specified in the veterinary protocol as required in point 4, shall be indicated on one or several Veterinary Certificates. (Official document issued by the corresponding Official College of Veterinarians).

OFFICIAL VETERINARY CERTIFICATE

At International TQBs, Certificates shall have the same category as in Spain, in keeping with the specific legislation of each country.

6. Horses presented at a TQB, during any one of the days the test takes place, may have their reproductive organs examined by a veterinarian, as well as an X-ray examination using the necessary means.

IV. JUDGES:

1. All TQBs held throughout 2019 shall judge three different aspects:

- Conformation and movement
- Ridden test

2. Regarding Conformation and Movement, horses shall be judged by a Committee made up of at least three (3) members designated by the Breeder Association responsible for the Breeding Program. This number may be less in the case of TQBs held outside Spain.

3. The Ridden Test shall be judged by a Dressage judge designated by the Breeder Association responsible for the Breeding Program.

V. JUDGING PROCEDURE:

The Conformation Test shall take place first, followed by the Ridden Test.

1. Conformation Test:

1. This test is mandatory for all horses.
2. Three (3) judges shall assess each horse by completing a single score sheet based on consensus, with the judges as spokespersons of the results.
3. The score making up the final result as APPROVED or NOT APPROVED shall be the total tally of the scores on the Conformation Test score sheet.
4. The minimum established score for Conformation is 85 points out of a possible 130, while the minimum in the Ridden Test is 24 points out of a possible 40.
5. Horses that have a score of VERY POOR (between 0 to 2.99) or two scores of POOR (between 3 and 4.99) in one of the thirteen (13) conformation and movement parameters shall be considered NOT APPROVED.
6. Judges are authorized to touch those body parts of interest to them.
7. Once the Conformation Test has concluded, the horse shall continue to the Ridden Test after which, all documentation shall be turned over.
8. Conformation is assessed according to the following parameters:
 1. Head
 2. Neck
 3. Shoulder and Withers
 4. Back and Loins
 5. Chest and Thorax
 6. Croup and Tail
 7. Fore limbs and limb alignment
 8. Hind limbs and limb alignment

9. Breed fidelity
10. Overall harmony
11. Walk
12. Trot
13. Canter

9. Owners shall receive a summary sheet for each horse.

10. Judges shall provide a written explanation with the reason/s why a given body area has been considered poor and/or very poor.

11. Each horse shall have a maximum of 15 minutes to perform the Conformation Test, which may be extended as deemed necessary by the judges.

12. The Starting Order shall be established in groups of stallions and mares from younger to older, with preference being given to those mares participating in the Ridden Test.

13. If the Judges notice that a horse is clearly lame, they may conclude the assessment prematurely, declaring the horse NOT PRESENTED at that TQB.

14. The result of the Conformation Test for the stallions could be:

- **APPROVED: 85 points or more**
- **NOT APPROVED: Less than 85 points**

15. In the case of mares not participating in the Ridden Test, the result may be:

- **APPROVED: 85 points or more**
- **NOT APPROVED: Less than 85 points**

16. In the case of mares participating in the Ridden Test, the result may be:

- **APPROVED: 80 points or more**
- **NOT APPROVED: Less than 80 points**

2. Ridden Test:

1. It is mandatory for all stallions.
2. The Judge shall be a dressage judge from the annual, official list of judges.
3. The resulting score shall be obtained from a maximum total of 40 points.
4. Mares may voluntarily take part in the Ridden Test, with the same age conditions being applicable with regards to their entry.
5. The result of the Ridden Test in the case of the stallions may be:
 - **NOT APPROVED: Less than 24 points**
 - **APPROVED: 24 points or more**
6. The result of the Ridden Test in the case of the mares may be:
 - **NOT APPROVED: Less than 24 points**
 - **APPROVED: 24 points or more**
7. The sections judged in this test include: Walk, trot, canter and general attitude and impression.
8. The performance of the horse is assessed in a free-style test, in which the rider shall follow the instructions given by the Judge. This shall have a maximum duration of 4 minutes.
9. This data shall be calculated and shall be considered as information for the Performance Test and Genetic Assessment for the Aptitude for Riding.
10. If the Judges notice that a horse is clearly lame, they may conclude the assessment prematurely, declaring the horse NOT APPROVED.

3. TABLE OF RESULTS:

Depending on the results obtained in the two aforementioned tests, the final assessment of a horse shall be as follows:

<u>CONFORMATION</u>	<u>RIDDEN TEST</u>	<u>FINAL SCORE</u>
APPROVED	APPROVED	APPROVED
APPROVED	NOT APPROVED	NOT APPROVED
NOT APPROVED	APPROVED	NOT APPROVED
NOT APPROVED (80-84.99)	APPROVED (29 or more)	APPROVED
APPROVED (90 or more)	NOT APPROVED (20-23.99)	APPROVED

For Stallions;

- Those horses achieving between 80 and 84.99 points in the Conformation Test and 29 or more in the Ridden Test, shall be considered APPROVED.
- Those horses achieving between 20 and 23.99 points in the Ridden Test and 90 or more in the Conformation Test, shall be considered APPROVED.

For Mares;

- Mares that perform the ridden test must obtain 24 points or more to be considered APPROVED.

4. MINUTES AND RESULTS

- I. Once the Tribunal tests have concluded, the breeder shall be notified of the results. All original, updated documents for that horse shall be returned. The score sheets and notes made by the judges may be reviewed.
- II. Each owner shall receive the minutes and a summary of the results obtained by their horse at the Tribunal.

VI. SUMMONS:

1. Each horse has the possibility of attending THREE (3) TOBs. If the horse was NOT APPROVED at the first, it shall have

two (2) more opportunities, being able to use these in the same year, or in other successive years.

VII. BREEDER RIGHTS AND OBLIGATIONS

1. Rights:

- Present any horse at a TQB that owned by a given breeder as indicated in the PRE Stud Book.
- Obtain the documentation that refers to the judging of their horse at a TQB, as foreseen.
- Appeal the reports regarding OCD issued by the University of Cordoba Veterinarian Hospital.

2. Obligations:

- Pay the established fee for the right to enter a horse for a TQB.
- Pay the entry fee established for TQBs held outside of Spain, according to the price established by the Association or its organization, with which the TQB coordinates the event.
- Pay for the OCD reports issued by the University of Cordoba Clinical Veterinarian Hospital.
- All breeders and their personnel must, at all times during the TQB, behave and show respect towards judges and members of the Tribunal.
- Farm managers and handlers must perform their duties dressed as is required for Conformation Competitions.
- All horses must be presented sufficiently in advance of the established schedule starting order.
- The Rules and Regulations established with regards to the horses, handlers, riders, owners and judges for Conformation Competitions must be respected at all TQBs, in terms of both behavior and conflict of interests. Likewise, the Disciplinary Procedures laid out in said Rules and Regulations shall also be applicable at these Tribunals.

All of the above shall be followed, providing that there is no rule or regulation that contravenes what is laid out in these Rules and Regulations.

Appendix 2019 TQB Fees in Spain

- Throughout 2019, entry fee for any of the TQBs shall be €240 (VAT included)
- OCD Reports from the University of Cordoba Clinical Veterinarian Hospital shall be: **€99 (VAT included)**
- If and when a breeder has requested the report, and presents his/her horse at a TQB, said breeder shall enjoy a discount on the TQB Entry Fee:
 - €90 for Full-fledged members of ANCCE.
 - €60 for Associate members or members of associations that are ANCCE members.
